In early January we fell in love
When you were generally horny enough
The month of February 28 days
I bought you chocolate for your womanly ways

Chorus:

I've been here fifty years or more
And every year I love you more
So don't tell me to clean my act
I'll wash myself when I get back

The chill came early September was cold
I begged my way back to your heart you said no
I built a fire on all hollows even
I burned my shirt with my heart on my sleeve

Chorus

I don't take anything for granted no more
I'll take it even when I wouldn't before
Maybe heavens got my foot in the door
But I've got two

We danced in four on Thanksgiving Day
We took a shower and made bread in the hay
It's not a secret that when December came
I think we both did and I carry no shame

Chorus
